About

Frontend developer with experience in React.js and a focus on building functional websites. I stand out for my adaptability to new technologies and my interest in bringing creativity and innovation to web projects. I aim to contribute scalable solutions while continuing to strengthen my technical skills.

Education

HighSchool | Instituto Sagrado Corazón
2020 - 2024
Bachelor's degree with a focus on computer science.

CoderHouse Web Development Course
Jan 2023 - Mar 2023

- 30 hours.
- Mark: 8/10.

I learned how to create, design, and optimize responsive websites using HTML, CSS, and SCSS.

CoderHouse JavaScript Course
May 2023 - July 2023

- 30 hours.
- Mark: 10/10.

In this course, I learned how to use JavaScript to program and add interactivity to my websites. I also studied fundamental language concepts such as functions, objects, asynchrony, and promises, among other topics.
